ALPACA

AUSTRALIAN ALPACA
NEW BREEDER MASTERCLASSES

Our acclaimed industry experts have been at the heart of the Australian Alpaca industry from the very start, driving the science and evolution of the Australian Alpaca.

A lifetime of Merino expertise has been the inspiration for our fleece-perfect Huacaya breeding programme, crafting an animal that is born to thrive in our climate and conditions.

We are as proud of our stud's own pedigree, with its industry firsts, awards & accolades, as we are of the many thousands of elite Alpacas we have bred for Australia and the world.

Breeding, genetics, knowledge & expertise.
Share our vision for the fleece-perfect Australian Alpaca.
